

Are you ready for a Miracle?

All these people have experienced

a miracle from God at Trinity.

Meet them. Hear their stories. Witness God's awesome power.

If God can do it for them, He can do it for you too.

The miracle can be yours!

My bones are healed!

In a car accident, I suffered 2 **injuries on my spine**. One was a tiny fracture but the other was a big and serious one. I was told to go for surgery to insert a **metal plate** in my spine.

Before the surgery took place, a Trinity pastor prayed for me and **commanded my bones to come together**.

Two days later, an X-ray showed that my bones were **healing very well**. The doctor was very surprised, and said I would not have to go for the operation after all. I give God all the glory!

Lee Shiau Hui

The pain is much less!

I had **pain and numbness** in my thighs. I had spent a few thousand dollars on Western and Chinese medicine.

At Trinity's Power Weekend, I was prayed for and felt a great relief. Both the pain and numbness have been **reduced tremendously**. Praise God!

Alex & Ko Nie Lee

God gave us a financial miracle!

My wife and I had paid the **deposit for a flat**. We were waiting for the valuation report when we read in the newspapers that the valuation for HDB flats had dropped by 10-12%!

If the valuation really dropped, we would not have sufficient cash for the Cash Top-Up. We would have to **forego the flat – and the deposit**.

We prayed to God for His intervention. God told me: "Ask and you will receive." On hearing this, I asked God to increase the value of the flat.

When our valuation report came out, the value of the flat had **risen by \$9000!** Hallelujah!

God healed my head and restored my hair!

I fainted in my bathroom and suffered a **big bump** on my head.

My hair started to fall off, leaving a patch about the size of two one-dollar coins.

Vivien Yip

The bump and the pain were still there. At Trinity's Power Weekend, God healed my head. The **pain was gone!**

And God not only healed my head, He has also **restored** my hair! Praise God!

My thyroid problem is gone!

I had a **hyperactive thyroid gland**, resulting in a condition called hyperthyroidism.

At Trinity's Power Weekend, the pastor mentioned that God wanted to heal someone with heart palpitations, chemical imbalance and a thyroid problem.

I claimed God's healing for myself, and **immediately** felt the heart palpitations and gastric pains stop. The doctor said my thyroid is now well within the **normal range!** I praise God for this miracle!

God blessed us with twins!

We were trying in vain to conceive our second child. My wife had suffered a **miscarriage**, and the doctor told us that we only had a 1% chance of conception.

We prayed for a miracle. Then we discovered that she was **pregnant with twins!** It was amazing as we have no family history of twins nor had we sought any fertility treatment!

Despite being born slightly premature, both Faith and Janelle were **perfectly healthy** and required minimal neonatal intensive care at birth.

Their names, Faith and Janelle (which means "God is gracious"), have been chosen to reflect God's faithfulness and grace. Our God is an awesome God!
